HR Interview Questions

Q1. Tell me about yourself.
Answer:
I'm a Cloud Operations Engineer with 7+ years of experience in AWS, Kubernetes, DevOps automation, and SRE practices.
I've managed large-scale cloud environments, including 90+ EKS clusters, 6k+ EC2 deployments, and systems handling 26B+ API calls per day.
My strengths include troubleshooting complex issues, improving reliability, automating deployments, and ensuring operational excellence in 24x7 environments.

Q2. What is your biggest achievement?
Answer:
Handling cloud operations for a global IoT security platform with 39M+ devices.
I ensured stable operations, automated provisioning, improved deployments, and reduced on-call incidents.

Q3. Why should we hire you?
Answer:
I bring strong experience in AWS, EKS, CI/CD, Terraform, and large-scale SRE operations.
I've worked in high-pressure environments, resolved critical outages, contributed to automation, and ensured stability at scale.
I can contribute from Day 1.

Q4. How do you handle pressure and outages?
Answer:
I follow structured debugging, maintain calm, and prioritize issues.
Being in 24x7 WarRoom environments trained me to diagnose quickly and communicate clearly.

Q5. What are your strengths?
- Deep AWS + Kubernetes experience
- Strong troubleshooting
- Automation mindset
- Reliable in on-call
- Calm under pressure

Q6. Weakness?
Answer:
Earlier I used to take on too many tasks myself, but now I delegate better and document everything for team clarity.

Q7. Why did you leave your previous job?
Answer (Safe):
Looking for better career growth, more challenging cloud projects, and opportunities to expand my DevOps/SRE skills.
